

## September 2003 – HP-UX Software Update Releases

The codeword is set to "NONE" for a given HP-UX Application Media part-number, this either means that the product is unprotected on that HP-UX Application Media part-number and that you do not need a codeword to install this product, or that the product is not protected Install Time\* but Run Time\*.

You will find below, a list that will help you manage your CD set or DVDs.

\*Install-time: licensing provides a means of protecting software from illicit copying by restricting the user's ability to install software from media, such as CD-ROM.

\*Run Time: The technology and approach used in run-time licensing differs from that of install-time. Rather than administering software licenses at time of initial software installation as with install-time, run-time licensing manages user ability to run the software.

Disk Description	HP-UX 11.00	
	Workstations	Servers
Install/Core	5012-7884	5012-7884
Application CD, 1 of -4	5012-7987**	5012-7987
