May 2005 – HP-UX Software Update Releases

The codeword is set to "NONE" for a given HP-UX Application Media part-number, this either means that the product is unprotected on that HP-UX Application Media part-number and that you do not need a codeword to install this product, or that the product is not protected Install Time* but Run Time*.

You will find below, a list that will help you manage your CD set or DVDs.

*Install-time: licensing provides a means of protecting software from illicit copying by restricting the user's ability to install software from media, such as CD-ROM.

*Run Time: The technology and approach used in run-time licensing differs from that of install-time. Rather than administering software licenses at time of initial software installation as with install-time, run-time licensing manages user ability to run the software.
