Digital TCP/IP Services for OpenVMS V4.0

digital ™

AV–PU3ZK–TE
November 1995

Dear Customer:

Thank you for purchasing Digital TCP/IP Services for OpenVMS (UCX) networking software. This product is Digital's implementation of TCP/IP protocols and services for the OpenVMS operating system. This package contains the Digital TCP/IP Services for OpenVMS Version 4.0 software and user documentation. Please check the bill of materials to see that all items listed are in your distribution kit. If any item is missing or damaged, contact your Digital representative.

Refer to the Digital TCP/IP Services Software Product Description (SPD) for a complete description of this product. If you desire assistance in planning and installation, contact your local Digital office.

Features

The Digital TCP/IP Services for OpenVMS release notes for Version 4.0 discuss the new features of this release. The release notes are located on the distribution media in the same directory as the software save sets. After installation, the release notes are located in SYS$HELP:UCX040.RELEASE_NOTES.

Product Licenses

The Digital TCP/IP Services for OpenVMS product offers two licenses:

- Digital TCP/IP Services for OpenVMS server license provides all the software components.

- Digital TCP/IP Services for OpenVMS client license provides the same software components except Remote Boot Server (BOOTP), BIND Server, NFS Server, and PC–NFS Server.

Documentation Comments

Digital prides itself on responding to customer needs. In order to continue serving you, we need your comments. Each manual includes a pointer to an Internet address (doc_quality@lkg.mts.dec.com) and a mail address that allows customers to mail comments directly to the Digital TCP/IP Services writing group.
